

# End of term celebrations

Nottingham is proud  
of its students and everything  
they bring to the city!

Please remember to consider your  
neighbours when enjoying  
well-earned party celebrations.

Nottingham has a Purple Flag Award  
for having an outstanding nightlife  
in the city. Instead of holding an  
end of year party in your property  
we recommend that you attend an  
organised event in the Union bars or  
other licensed venues in the city.

Remember  
you are responsible for  
the noise and behaviour of  
your guests. If you receive  
complaints from neighbours,  
take responsibility and  
act on the complaint.

When returning home from organised  
events please ensure the party  
doesn't continue on the street or at  
home, when other residents may be  
affected.

If you still decide to have a house  
party...

- Have the party on a weekend and agree to finish at a reasonable hour
- Let neighbours know about any planned party
- Keep the music down especially the bass and check levels regularly
- DJ decks and loudspeakers are not appropriate
- Keep doors and windows shut when playing music
- If the party starts outside move everyone inside in the evening
- Ask your guests to leave quietly.

Thank you

# Are you affected by noise from your neighbour?

Nottingham City Council's Community Protection Division and Nottinghamshire Police are working in partnership to address issues of anti-social behaviour in our community. We investigate and resolve complaints about unreasonable levels of noise, such as loud music and barking dogs.

**If you are affected by noise from neighbouring parties please call Nottinghamshire Police on their non-emergency number 101 while the noise is happening.**

Please explain exactly what is happening and what disruption it is causing. Police Officers will aim to attend and, if necessary, warn your neighbour. Please understand that the length of time it takes for officers to attend could be affected by other incidents reported to the Police across the city at that time.

**If noise from a particular property is a regular continuing problem the Police will refer the case to the Pollution Control Team in Community Protection for further investigation.**
